

Greetings New York / Eastern Canada members,

Thank you for allowing me the opportunity to attend the Suffolk County Shoot as well as the Luncheon . I was glad to be able to meet you all and chat with you about my Section 4 Campaign. I hope you are all putting the can koozies to good use this summer!!

For those of you that I did not get a chance to meet, please allow me the opportunity to introduce myself. My name is Jason Moen, graduate of the 252nd Session and the 2020 President of the New England Chapter. I am a candidate for the Section IV Representative Seat in 2022 at the Cleveland Conference. I would like to ask you for your support in my campaign to represent Section IV.

My experience on the Executive Board for the New England Chapter has motivated me to seek the Section IV Seat. As we have all learned, the National Academy experience does not end when we graduate. The networking opportunities on several levels offers us invaluable resources as we navigate these turbulent times as law enforcement executives. The Association is known as the world's strongest law enforcement leadership network. It is my firm belief that we need to continue to strengthen and bolster that network as much as possible.

Our network is only as strong as our members. Member engagement needs to remain a priority for the Association. Bolstering our corporate partnerships to increase member benefits serves as one avenue to increasing membership incentives. I believe that exceptional training and enduring partnerships are key to attracting new members. Branding the association as the premier law enforcement leadership network through the presentation of high caliber leadership and training opportunities will be vital to the success of the association.

As your Section IV representative, member recruitment and retention would remain one of my top priorities. We also must find ways to keep our retired members actively engaged in the association. From corporate partnerships specifically forged to benefit our retirees to offering specialized training sessions

on financial planning and other key retirement topics, our retirees remain a critical part of our association.

As we begin to navigate the post-pandemic world returning to the "new" normal, reduced session sizes as well as several missed sessions will have an impact on our membership levels that will be felt for years to come. As your Section Four representative, I am looking forward to the challenge of helping the association navigate these critical issues in the years to come. I look forward to your support if possible.

This year the Association will be conducting electronic voting for the Section 4 election on Tuesday morning August 2nd. You do not have to be present at the conference to vote. You will be able to vote through the FBINAA Connect App on your smartphone. You can download the Connect App at Itunes or the Google Play store. You will need your FBINAA membership number and password for the website to use your Connect App.
